

VERSATILE AND DYNAMIC MECHANICAL MACHINING

O.M.R. is a family company active in machining since 1980 - turning and milling on traditional machine tools.

We produce mechanical parts based on the customer's design (subcontracting or complete supply), employed in various industrial sectors such as energy (Oil & Gas, wind, hydroelectric, motors), petrochemical, mechanical, railway, earthmoving, automotive, robotics, packaging, and food industries.

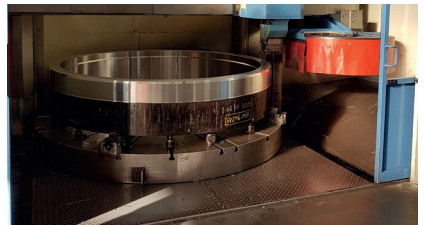

O.M.R. constantly invests in innovative machinery, advanced technologies, and qualified personnel, which made this company a selected supplier to national and international industrial groups.

Full compliance with UNI EN ISO 9001, as well as sharp internal processes, are the key-factors which ensure full customer satisfaction.

The complete production process is monitored at O.M.R.: from the supply of raw material to painting, through all steps up to assembly according to customer's design. O.M.R. counts today 90 employees.
